Early Intervention Program

The month of January offered a great beginning of a New Year and now February arrived very quickly. We are more than happy to welcome our new friends to our the program.

Students of the Month

Jairo Gonzalez has progressed a lot since his beginning with us here at Carousel Pre-School. He is more calm in class and is concentrating more in classroom activities. Jairo is now responding to his name and plays with his class-

mates.

Yasmine Reyes has acclimated to our Early Intervention Program. She is showing more comfort during our daily routine and has been transitioning smoothly. She has been responding to her name and greeting her teachers and peers appropriately. Keep up the great job!!

Jessica Agura enjoys coming to school. Her behavior in school is outstanding. She helps her teachers and friends and participates in all school activities. Jessica

is doing a very good job expressing her wants and needs using three to four words in one sentence.

Carlos Robles sits for a longer period of time during circle time and participates more in centers. His transitioning through out the day has become better. Carlos is doing a great job eating and drinking from an open cup independently with the help he has been receiving from his therapist.

“Whatever they grow up to be, they are still our children, and the most important of all the things we can give to them is unconditional love.”
