## BUMBLEBEE CLASS

Dear Parents,

Hello February, and welcome to the month of love and friendship. One of our main focuses this month is for our students to understand what kindness means and what simple acts of kindness are. Reading the book, "Have You Filled a Bucket Today" will help our students visualize what it means to be a bucket filler versus a bucket dipper. At the end of the story, we will share examples of how they could be bucket fillers and challenge them to participate in one week of random acts of kindness. Alongside our week of kindness, we will also be busy making various arts and crafts to decorate our classroom for Valentine's Day. We will show love to one another this month, but most importantly, show love to our teeth, too. We look forward to raising dental care awareness among our students by discussing what happens to our teeth when they are not brushed, learning about the parts of our mouth, and participating in a hands-on dental activity. February will have many fun things in store for us.

*"Tooth be told, we love our students."*

### Student of the Month

We are happy to announce **Elowen Hallinan** as our student of the month for January! Elowen is a bright and caring student who is a natural leader amongst her peers. Her favorite questions include what, how, and why when talking about different topics. She is curious and loves to explore through play, especially when playing outdoors. When asked if someone would like to volunteer, Elowen raises her hand and quickly says, "me." She loves to participate, especially during circle time. Coloring and painting are activities that she enjoys and takes her time with. We applaud you for being such a hard worker and always giving it your best. Congratulations Elowen!

We are also delighted to announce **Brooklyn Sprenger** as our student of the month. Brooklyn is such a kind-hearted student who offers hugs to other classmates. When a peer is alone during play, Brooklyn notices and invites them to play with him. He truly cares for everyone in class and is a friend to all. We appreciate him for always trying to help teachers during clean-up time and for holding the door for others. He is a wonderful little helper in class. When trying something new, Brooklyn is always willing to give his best effort and takes his time in all he does. It's a joy to have such a magnificent student as Brooklyn in class. Congratulations, and keep up the great work!
